Utilizing your 2nd Amendment right to Bear Arms with the intent to protect your family is a natural and justified concern for police officers who are **skilled and experienced** in firearm use. However, Perhaps you are working the graveyard shift while your family is home alone sleeping in what you perceive to be an alarm based secured dwelling but turns out to be threatened by **skilled and experienced** criminal intruders. Unless your spouse is a **skilled and experienced** CHL firearm expert, your lives could ultimately change into a nightmare in an instant.

And even if your spouse is a CHL firearm expert and forced to discharge her firearm eliminating the physical threat initiated by a criminal intruder, the nightmare could still remain based on homicide investigations, criminal charges, wrongful death lawsuits that will inevitably follow. In addition to the traumatizing experience your spouse/partner will be forced to endure you will be faced with high costs for legal defense in attorney's fees averaging \$350-\$500 per hour that could ultimately bankrupt you. C.O.P.S. now offers a family protection plan that will minimize the cost, provide a comforting sense of security, and offer your family 24/7 firearm defense by the same **skilled and experienced** legal team that represents you in your official capacity for police related shootings. How can you put a price on that type of security?

If you are an active **C.O.P.S. Legal PLUS Member** in good standing OR a **NEW member** signing up for the **C.O.P.S. LEGAL PLUS PLAN** for the first time, you can now **add** the **FAMILY FIREARM PROTECTION PLAN** to your existing or new membership at a low monthly cost for family members that hold a CHL in Texas.
